* Offers valid on full price services only

1. The CQC have announced they aim to complete 9000 inspections by Sept 2026. That's around 160 a week across all sectors. Are you ready? Contact us for details of our live and virtual support packages.
2. The CQC are scoring and rating using the new Quality Statement scoring mechanism. Have you been inspected yet? Contact us for details of ways we can support if you have received a new report using the scoring system with targeted quality statement support.
3. Targeted work is underway to improve processes for registration to allow registration teams to focus their time on successfully completing applications and reducing backlogs
4. The CQC have launched their homecare pilot to make homecare registrations more efficient and consistent. They will now routinely return and reject applications that are not complete or accurate at the point of receipt, without the need for a full registration assessment of quality.

***** NEW SERVICES*****

- ✓ **CCQ Training and Compliance Workshops**
